

## Annual Course Review Report

(To be filled by Course Instructor)

For completion by the course instructor and transmission to Head of the Department with copies of the Course outline

Department: Computer Science and Engineering (CSE)	School: School of Science and Engineering
Course Code: CSE 208	Title: Data Structure LAB
Academic Year: <b>FALL 2018 – SUMMER 2019</b>	Credit Value: 1
Name of Course Instructor: Satyaki Das	No. of students : 173

**Distribution of Grade/Marks and other Outcomes: (Use the prescribed grading system of the university)**

**Post graduate/Undergraduate**

Number of Enrolled Students: 173

Scale	Letter Grade	Numbers of students				%
		Fall 2018	Spring 2019	Summer 2019	Total	
	A+	0	0	2	2	1.156069364
	A	5	9	13	27	15.60693642
	A-	6	11	1	18	10.40462428
	B+	9	4	7	20	11.56069364

	C+	1	8	3	12	6.936416185
	C	1	5	1	7	4.046242775
	D	0	3	9	12	6.936416185
	F	3	5	10	18	10.40462428
Incomplete	I	0	1	0	1	0.578034682
Withdrawal	W	4	9	10	23	13.29479769
<b>Total</b>		38	66	69	173	100

## Overview

Feedback: first summarize, and then comment on feedback received from: (These boxes will expand as you type in your answer.)

1. Teacher Evaluation Result:

2. Content/Topics Improvement Plan:

Considering the Intended Learning Outcomes (ILO) and the Course Outcomes (CO) I planned the contents of the course to meet the requirements of Program Outcomes (PO). I review the course contents and then discuss my opinions and ideas with other faculty members and the Head of the Department. Their feedback along with my review and ideas are then combined to update the contents and topics of the course.

3. Teaching Method (Comment on effectiveness of teaching method):

The course material is strictly maintained to deliver the contents in time. Students are assessed by taking lab quizzes along with a midterm exam and a final exam. Students are also assigned project works. Students' responses are also assessed during the class by observing their involvement in class.

4. Assessment: Comment on the continuing effectiveness of method(s) of assessment in relation to intended learning outcomes (Course objectives)

The methods of assessment are reviewed continuously. Therefore a semester review report is prepared and shared with other faculty members and the Head of the Department. Based on the discussion, the methods are updated and recorded in the course outline. The updated course outline is shared with the students at the beginning of the each semester. Students are assessed based on the updated course outline from next semester.

5. Outline any changes in the future delivery or structure of the course that this report may prompt.

The changes in assessment and course contents are applied in the course outline for the next semester.
