

1. What is the difference between container tags and empty tags? Explain with proper examples. 5
2. Explain the difference between radio buttons, checkboxes and combo boxes. Where would you use which? Explain your answer. 5
3. What are the different ways to specify colors? Provide an example of each different way. 5
4. Look at the following style: 5

```
<style type="text/css">
  .box200 {
    width: 150px;
    height: 100px;
    border: 1px solid black;
    color: blue;
    padding: 10px;
    margin: 15px;
  }
</style>
```

Calculate the total element height and width for a <div> element of class "box200".
